

The Lotus Studio Needs You! Hello Spirit Room Supporters!

We have named our new big space the Lotus Studio after our logo. We bumped through the brick wall and into the second floor space above Swanson Health Products. We entered what I would call a foyer area. To the left is a big room, a box really, and to the right are offices and a conference area.

We began with demolition: removing the suspended ceiling, removing the sheetrock wall and going back to the brick, removing carpeting and removing old ductwork.

The expansion is Phase 2 of our 3 part project. Phase 3 is to add an elevator at the back of the building for ADA accessibility to both buildings. (Phase 3 is down the road a bit.)

Meanwhile, we need your support to help us finish Lotus Studio.

So far, we have gotten by with donations but from now on out, we will need funds to finish.

If you can buy one of the components or part of one, we will list you on a wall plaque in the Lotus Studio and we will be eternally grateful. Your contribution will be 100 % tax deductible because we are a non-profit organization. Let's celebrate and get this project to completion!

Valerie Larsen

Beginning with painting for our first event

Scott Fredrick and assistant.

Demolition of north sheetrocked wall
back to brick: removal of suspended ceiling
removal of carpet:
